

REMOTELY OPERATED VEHICLE (ROV) TECHNICIAN

START YOUR CAREER IN UNDERWATER ROBOTICS!

W Johnson Consulting LLC (WJC) is offering a fully-sponsored, hands-on training program using VideoRay Defender and Pro5 ROV systems, equipping participants with the skills needed for a rewarding offshore career.

ABOUT THE INDUSTRY:

Demand for Remotely Operated Vehicle (ROV) Technicians is on the rise as offshore industries like oil, gas, and renewable energy increasingly rely on underwater technology. With hands-on training and certification, ROV Technicians are well-positioned for strong career growth and competitive pay in a high-demand field.

ABOUT THE TRAINING PROGRAM:

- Hands-on training with industry-standard ROV equipment
- Advanced maintenance & ERA simulator modules
- Mental health and core values workshops
- IADC RigPass, BOSIET & OGUK physical included
- Earn \$300–\$500/day offshore after training
- Apprenticeship and job placement support provided

ELIGIBILITY REQUIREMENTS:

- Age: 16–24
- High school diploma or GED
- Able to pass a drug test and an offshore physical
- Clean background and TWIC-eligible
- Must be committed and passionate about training and career success
